

Christmas is just around the corner, I have definitely noticed an increase in shoppers out and about.

My big achievement this month was walking the Queen Charlotte Track in the Marlborough Sounds. What an amazing experience. I really enjoyed the bellbirds and cheaky Weka's that seemed to follow us everywhere!

December Product Special

New to our product range are Soap Nut laundry detergents.

I have been using these at home for a number of months and have been very impressed with their performance.

Soap Nuts are fruit that grows on trees. When dissolved in water they produce a mild sud similar to soap. They can be used in your laundry, dishwasher and for general cleaning. If you are keen you can actually grow them yourself!

To use Soap Nuts put 6-8 nuts in a cotton wash bag (supplied) and place in your washing machine. For a light fragrance you can add a few drops of essential oil to the bag (we have these available as well). If your machine allows, you can stop the rinse cycle as you won't need it with soap nuts.

This month I am doing a special on the 250g bags of Soap Nuts. Included is a small washbag. Usually \$13.83 + GST, this month \$12.00 + GST

Interesting fact!

The first primitive soap was made from the ashes of wood and other plants extracted by water.

Holiday period

Many of our suppliers are closing from the 17th December till the 10th of January, so we will be too. If you need products for this period I recommend you order them early.

Have a wonderful Christmas and New Year. Thank you for your business, we truly appreciate it.
