

Summer finally seems to be just around the corner. I've noticed more people out walking in the mornings with cheerful hellos!

I went to a nutrition seminar a couple of weeks ago and one of the big things he stressed was the importance of getting out into the sun (outside of the burn times) to increase the Vitamin D in our bodies.

Well I guess that's a lot easier now we can see the sun shining!

### **November Product Special**

One of our most popular products is the Earthcare toilet rolls.

Earthcare have the Environmental Choice Australia Certification. This award recognises the manufacturers work done to achieve minimal environmental damage when producing their products.

Earthcare products are made from 100% recycled 'office whites' paper. The paper is oxygen bleached, not chlorine bleached. They recycle their waste water and any solid waste is used as a soil conditioner. Earthcare toilet paper is designed to breakdown as fast as possible after use which means it is ideal for use in septic tanks and with old plumbing.

In the Earthcare range we have 1ply and 2ply toilet rolls, jumbo rolls, interleaf tissue paper, centrefed paper towels, serviettes, and tissues.

Best of all Earthcare products are soft, strong and white!

This months special is on the Earthcare toilet rolls, 400 sheets per roll, 2ply, individually wrapped. Usually \$45.94 + GST This month **\$42.00 + GST** [BUY NOW](#)

### **Interesting fact!**

The Military used toilet paper to disguise their tanks during the Desert Storm War.

### **Interesting Video!**

Ever fancied making a rose out of toilet paper? [Watch this video](#) to see how!

Have a fabulous November!
